# SYSTEM OF SURVEY OF DOMINION LANDS

Dominion Lands are laid off in square townships containing thirty-six sections of as nearly one mile square as the convergence of meridians permits. Such sections are bounded and numbered as shown in the township diagram below.

PLAN OF A TOWNSHIP

8

A section contains six hundred and forty acres. Each section is divided into four quarter-sections containing one hundred and sixty acres each.

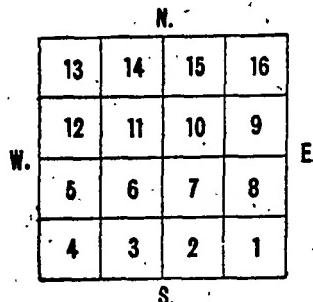

Townships are numbered consecutively from south to north. Each row of townships thus formed is given a range number. The ranges start from a Principal meridian and are numbered consecutively. The first meridian is a few miles west west of Winnipeg. Ranges number from this meridian as a starting point, both eastward. In regard to all other meridians ranges number westward only.

It will be seen that when numbers for the township, range and meridian are given the exact location of the township is known.

In the map on the opposite page the township numbers are shown along the meridian, and the range numbers along the bottom of the map.

Each section is deemed to be divided into forty-acre areas, known as legal subdivisions and numbered and bounded as in the diagram below.

PLAN OF A SECTION

S.

The lands listed herein are described in order of section, township, range and meridian, e.g. in No. 1 parcel, "N.W.  $\frac{1}{4}$  15-6-1-E. 1st." stands for the Northwest quarter of Section 15, Township 6, Range 1, East of the first Meridian.

**No. 1.****N.W. 1 15-6-1-E. 1st.**

160 acres, all suitable for cultivation. Heavy loam soil. Situated 4 miles from McTavish on C.P.R. Price \$4,000. Apply to T.A.H. Teeter, 2701 Arnold Way, Corvallis, Ore., U.S.A.

**No. 459.****Parts of Townships 4 & 5, Rges. 7 & 8. E. 1st.**

60,000 acres. Located in the Red River Valley country, Southern Manitoba, 44 miles southeast of Winnipeg. Nearest shipping point Marchand on C.N.R. The larger portion of this tract is a deep black loam soil from 12 inches to 6 feet deep, with clay and gravel subsoil. There are several sandy loam ridges through

this land that make excellent building places. The land is practically level or gently rolling and to a considerable extent is covered with a small growth of poplar, tamarack, spruce and hazel brush, but thousands of acres are ready to be broken. An extensive system of drainage has been put in. There are now over 65 miles of ditches, averaging about 16 feet wide and from 5 to 8 feet deep. In consideration of the public improvements made on this tract, the land is appraised until 1930 for the purpose of taxation at not more than \$1 per acre. Sale price is \$15 per acre retail, or \$13.50 per acre in block. Property is also for lease for stock raising at 10 cents per acre. Apply to W. P. Davidson, 1315 Pioneer Building, St. Paul, Minn., U.S.A.

**No. 460.**

## LEGEND

Land Titles Registration Districts

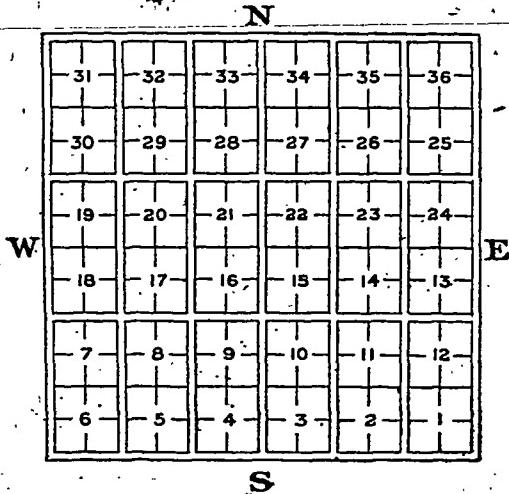

Land Titles Offices

# SYSTEM OF SURVEY OF DOMINION LANDS.

Dominion Lands are laid off in square townships containing thirty-six sections of as nearly one mile square as the convergence of meridians permits. Such sections are bounded and numbered as shown in the township diagram below.

## PLAN OF A TOWNSHIP

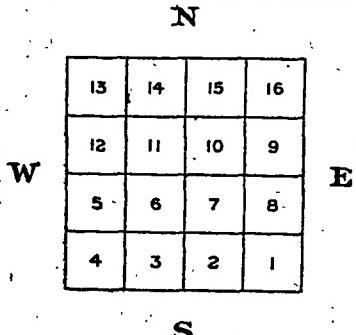

A section contains six hundred and forty acres. Each section is divided into four quarter-sections containing one hundred and sixty acres each.

Townships are numbered consecutively from south to north. Each row of townships thus formed is given a range number. The ranges start from a Principal meridian and are numbered consecutively. The first meridian is a few miles west of Winnipeg. Ranges number from this meridian as a starting point, both eastward and westward. In regard to all other meridians ranges number westward only.

In the map on the opposite page, the township numbers are shown along the meridian, and the range numbers along the bottom of the map.

Each section is deemed to be divided into forty-acre areas, known as legal subdivisions and numbered and bounded as in the diagram below.

## PLAN OF A SECTION

The lands listed herein are described in order of section, township, range and meridian, e.g., in No. 1 parcel S.W.  $\frac{1}{4}$  19-5-1-W. 1st stands for the South West quarter of section 19, township 5, range 1. West of the 1st Meridian.

**No. 1.****S.W. ¼ 19-5-1-W. 1st.**

# SYSTEM OF A SURVEY OF DOMINION LANDS

Dominion Lands are laid off in square townships containing thirty-six sections of as nearly one mile square as the convergence of meridians permits. Such sections are bounded and numbered as shown in the township diagram below.

PLAN OF A TOWNSHIP

31	32	33	34	35	36
30	29	28	27	26	25
19	20	21	22	23	24
18	17	16	15	14	13
7	8	9	10	11	12
6	5	4	3	2	1

A section contains six hundred and forty acres. Each section is divided into four quarter-sections containing one hundred and sixty acres each.

Townships are numbered consecutively from south to north. Each row of townships thus formed is given a range number. The ranges start from a Principal meridian and are numbered consecutively. The first meridian is a few miles west of Winnipeg. Ranges number from this meridian as a starting point, both eastward and westward. In regard to all other meridians ranges number westward only.

In the map on the opposite page the township numbers are shown along the meridian, and the range numbers along the bottom of the map.

Each section is deemed to be divided into forty-acre areas, known as legal subdivisions and numbered and bounded as in the diagram below.

PLAN OF A SECTION

13	14	15	16
12	11	10	9
5	6	7	8
4	3	2	1

The lands listed herein are described in order of section, township, range and meridian, e.g. in No. 1 parcel "W.  $\frac{1}{4}$  S-14-1-W. 1st." stands for "the West half of section 8, township 14, range 1, West of the 1st Meridian."
